12825 Four Winds Farm Drive
St. Louis, MO 63131

Dear Chuck Berry,

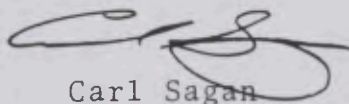

When they tell you your music will live forever, you can usually be sure they're exaggerating. But Johnny B. Goode is on the Voyager interstellar records attached to NASA's Voyager spacecraft -- now two billion miles from Earth and bound for the stars. These records will last a billion years or more.

Happy 60th birthday, with our admiration for the music you have given to this world . . .

Go Johnny, go.

Ann Druyan
